

LIFTING AND HOISTING

A lift plan needs to be able to demonstrate that all aspects of the lift have been considered i.e.

- 1) Load weight
- 2) Centre of Gravity
- 3) Location of the load, crane(s) or other lifting device, lay down area, clearly showing the radius for the lift
- 4) Crane Capacity
- 5) Rigging Capacity
- 6) Emergency Procedures
- 7) Transportation Issues
